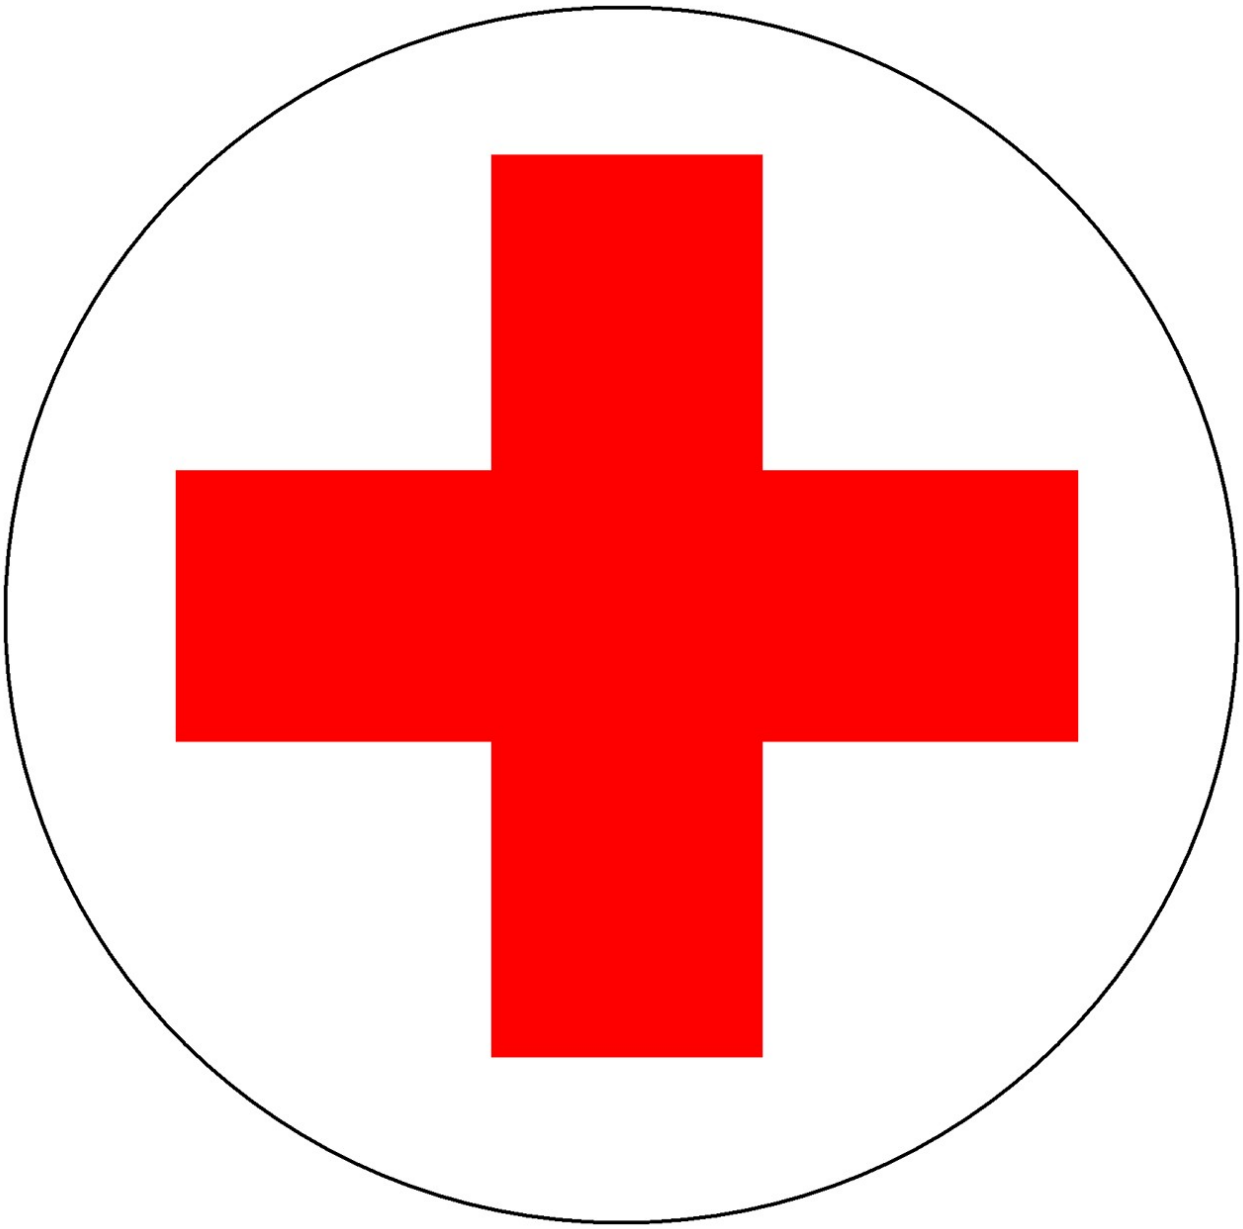
International Criminal Court Complaint No. OTP-CR-473/19

8 August 2022



New Mexico State police keep contacting me, asking me to get in a car with them to go for a ride (T. McClelland). This follows a pattern of similar unwanted contact since I was 17, in August 2000. I was forced into being a Confidential Human Source (trafficking,) whereupon I've been sexually assaulted by officers, drugged, held for several weeks without charges, and released; on multiple occassions.

It has been ongoing in the State of New Mexico since 2013, by Dona Ana Co. Sheriff's under DHS Operation Stonegarden, (when I left the U.S for refuge in South America,) and between 2018-2020 by U.S. Marshalls before I left the U.S. again for refuge in Canada (September 2020.)

International Criminal Court Complaint No. OTP-CR-473/19

8 August 2022

I went to city police station today to turn myself in and told them I am being contacted by email and told I'm wanted by the police. I was informed there are no wants or warrants ("29's",) on my record. I replied that I wanted to be left alone, and will only speak with a lawyer.
Gov. Grisham has authorized this contact because I contacted her office regarding my alleged loss of U.S. Citizenship (according to New Mexico Legal Aid, in July 2022).

I reported to the Hospital to be taken to the psychiatric unit (June 2022,) they refused to admit me; and called police for tresspass. I've been contacted to smuggle drugs, and children previously while abroad (by Americans). I attempted to report it, police threatened me to keep silent.

I was barred from filing in the 9th & 10th Circuit courts, (re: abuse of administrative discretion.)

I have been reported as "non-cooperative."

I sought Asylum in Canada (2020,) and was interrogated for 12 hours, and imprisoned until I agreed to waive my rights as a lawfully admitted refugee.

NATO is committing War Crimes in the Americas & silencing whistleblowers.

Since my fourth forcible repatriation to the U.S. (2021,) I've informed Federal Attorneys, that I will, (and have,) committed crimes (eg. vandalizing USPS property,) to force police to both open an investigation, and appoint me legal counsel (file formal charges); since being summoned by Okanogan Co. police, it appears charges were dropped. I was instructed by police to leave city limits, and offered a taxi.

This pattern of unwanted contact (and abuse,) is being conducted under ambit of "Threat Management," which is a 'slavery like practice;' (lifetime parole without charges, or legal counsel.) It constitutes a form of Eugenics, targeting low-income (occupation, social status,) and ethnic minority groups.

--Lykaion Pubishing, 8 August 2022.

I need a new Passport / Citizenship, medical care, (and access to other basic services).

I have epilepsy, after having multiple strokes, and a minor heart attack last year, and need regular access to basic medications which stabilize my condition. There is also damage to my kidneys, (and adrenal system.) I have difficulty communicating verbally, and walking any distance without assistance.

Family background:

My parents met at WSMR, while working on [Erts Experiments,] which were related to work at the HAARP station in Alaska. My mother, a local and ~27% Native American, a Mathematics student was asked to help develop software for mainframes which still used punchcards at the time. Her Grandparents worked at Fort Davis Texas just after the civil war. (She later went on to program the first ATM's for a bank, which also utilized mainframes.)

My father, a So-Cal surfer dude from Los Angeles *(who's favorite bands are probably Jan & Dean, Beach Boys, and Dick Dale,)* enlisted during Vietnam for Radio work, to avoid a Draft assignment on the front lines. His father, was a Captain in the 1st Armored Division, in Italy during WWII; and appears to have also worked with the OSS in some capacity. He married my Grandmother, a New Jersey native who's father worked as a physician during WWI and the Spanish flu outbreak in Philadelphia.

His little sister (my Aunt,) married U.S. Naval Intelligence Commander who worked at the Pentagon during 9/11. His other sister joined Peacecorp, and later did language work with ESL students on the East coast; after marrying a Bavarian.
